Submitted Via Regulations.gov

**RE: CMS-9964-P, HHS Notice of Benefit and Payment Parameters for  
2014, Request for 36 Day Extension of Comment Period**

To Whom it May Concern:

I write today to request an extension to the comment period of the regulatory action noted above. By using an extraordinarily short comment period of 24 days the Department flagrantly ignores Sec. 6(a)(1) of Executive Order 12866 which states in relevant part:

In addition, each agency should afford the public a meaningful opportunity to comment on any proposed regulation, which in most cases should include a comment period of **not less than 60 days**. (*Emphasis added.*)

The Department has cited no reason for its deviation from the mandates of Executive Order 12866 and in fact did not even acknowledge that the 60 day period specified in the order exists. While in exigent circumstances there might be reason to have a comment period of less than 60 days the Department has provided no evidence supporting a short comment period.

Furthermore, given the large number of new regulatory actions that are being undertaken by the Administration since the November elections, a longer comment period on this rulemaking will better enable members of the public and the affected community to provide detailed comments while not sacrificing their ability to comment on all regulatory actions that affect them.

Based on the foregoing I request that the Department extend the comment period on this rulemaking for an additional 36 days.

Sincerely,

A handwritten signature in blue ink, appearing to read "William Wilson", written in a cursive style.

William Wilson  
President
